PROFILE SUMMARY

I am a passionate Full Stack Developer with skills in JavaScript, Tailwind, and web development. I have experience in building user-friendly websites and applications. I enjoy learning new technologies and solving problems. I am currently improving my skills in Java, Data Structures & Algorithms, and advanced web development. I am looking for opportunities to apply my knowledge and grow as a developer.

MY PROJECTS

Portfolio

- Developed a personal portfolio website using React, JavaScript, and Tailwind CSS.
- Showcases projects, skills, and contact details.
- Implemented smooth scrolling and animations for a better experience.
- Hosted on GitHub Pages.

To-Do App

- Built a To-Do App using JavaScript, HTML, and CSS to manage daily tasks.
- Added features to add, edit, and delete tasks.
- Used Local Storage to save tasks even after closing the browser.
- Designed a simple and clean UI using Tailwind CSS.

Triangle Finder

- Created a Triangle Finder app using JavaScript, HTML, and Tailwind.
- Helps users check if three given sides form a valid triangle.
- Uses basic math formulas to determine the triangle type.
- Designed a responsive interface.

Weather App (Using API)

- Built a weather application using JavaScript, Fetch API, and OpenWeather API.
- Shows real-time weather updates based on user input.
- Designed with a simple and user-friendly UI using CSS.
