PROFILE SUMMARY

Full Stack Developer skilled in JavaScript, React, Node.js, and Tailwind CSS. Experienced in building responsive web applications, integrating APIs, and managing databases with MongoDB. Passionate about problem-solving and continuously learning new technologies.

EXPERIENCE

Full Stack Developer Intern – Cognifyz Technologies

March 2025 – April 2025 (remote)

- Developed responsive UI components using React.
- Integrated backend APIs with Node.js and Express.
- Implemented CRUD operations in MongoDB.
- Collaborated using Git & Postman.

MY PROJECTS

Portfolio

- Developed a personal portfolio website using React, JavaScript, and Tailwind CSS.
- Showcases projects, skills, and contact details.
- Implemented smooth scrolling and animations for a better experience.
- Hosted on GitHub Pages.

Weather App (Using API)

- Built a weather application using JavaScript, Fetch API, and OpenWeather API.
- Shows real-time weather updates based on user input.
- Designed with a simple and user-friendly UI using CSS.

Triangle Finder

- Created a Triangle Finder app using JavaScript, HTML, and Tailwind.
- Helps users check if three given sides form a valid triangle.
- Uses basic math formulas to determine the triangle type.
- Designed a responsive interface.
